STATEMENT OF UNDERSTANDING

In order to make this program cost-effective and offer it to as many qualified customers as possible, Utilities and its contractors purchase high-quality, ENERGY STAR® qualified appliances and/or equipment in bulk. As a result, the ESA Program offers customers a limited number of energy-efficient models to help reduce energy bills. Replacement units may not be equipped with the same features as existing units. At the time of installation, the installation contractor will provide written warranty information and instructions specific to each Measure installed. The length of each warranty varies by Measure, but come with a minimum two-year parts and labor.

I hereby release ownership of any and all replaced appliance(s) to Utilities.
